

Application of transparent projection displays for implementing an interactive full-screen Video-Conferencing system

Diploma thesis

Study course: Business Information Management

HOCHSCHULE DER MEDIEN

Stuttgart Media University

Benjamin Köhne

First examiner: Prof. Dr. Peter Thies

Second examiner: Prof. Dr. Christian Rathke

Stuttgart, September 2007

Table of contents

Table of contents	2
Table of figures	3
Index of tables	4
List of abbreviations	5
1 Introduction	6
1.1 Problem outline	6
1.2 Target	6
1.3 Structure of this thesis.....	7
2 State of the art	8
2.1 Computer Supported Cooperative Work (CSCW).....	8
2.1.1 Motivation.....	8
2.1.2 CSCW and Groupware.....	9
2.1.3 Classification of CSCW-systems	10
2.2 Cooperation within teams	12
2.2.1 Groups.....	13
2.2.2 Awareness within the group.....	14
2.2.3 System model: group cooperation	15
2.3 Conferencing systems allowing synchronous communication.....	15
2.3.1 Impacts on media choice	15
2.3.2 Video-Conferencing.....	17
2.3.3 Basic functions, components und requirements	18
2.4 Application sharing.....	20
2.4.1 Fields of application.....	21
2.4.2 Functionality	21
2.4.3 Example application: electronic whiteboard	24
2.5 Standards for real-time multimedia communications using IP-based networks	25
2.5.1 The H.323 collection of standards.....	26
2.5.2 Session Management using the Session Initiation Protocol (SIP).....	32
2.5.3 Comparison of H.323 and SIP.....	38
2.6 Example systems.....	38
2.6.1 HP Halo.....	39
2.6.2 Cisco TelePresence	41
3 Conception – Cooperative sketching in distributed meetings	44
3.1 Hardware architecture	46
3.1.1 Transparent projection display	47
3.1.2 Touchscreen	49
3.1.3 Digital video projector	52
3.1.4 Digital video camera	55
3.2 Software architecture	56
3.2.1 Working with time-based multimedia data streams	56
3.2.2 The Java Media Framework.....	57
3.2.3 Java application for cooperative sketching.....	62
3.3 Fields of application.....	67
4 Prototypical implementation: cooperative sketching tool	69
4.1 Streaming server: VideoTransmit	69
4.2 Sketching client: GlassBoardClient	70
4.3 Open issues: Java application.....	71
5 Summary and future prospects	73
Bibliography	75
Annex A: Source code - Java application	77
Statement	90
